Country of origin	France

Pattern specifications

Pattern elements	<ul style="list-style-type: none">• SFR square with a 5° tilt• Gray scale• 4 markers
------------------	--

Description

This transmissive chart consists of a square pattern positioned on a uniform Led panel (sold separately). The CF0002 chart is used for measuring color inaccuracies and artifacts caused by chromatic aberrations, a flaw that is especially visible near highly saturated areas of digital images.
